	APPROVAL OF STATE ENGINEER
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
inde hat ceri sour lowe leve neas nain	wing limitations and conditions:  This permit is issued subject to all existing rights on the source. It is extend that the amount of water herein granted is only a temporary allowance and the final water right obtained under this permit will be dependent upon the od of use and the average number of livestock served from the waters of this are. It is further understood that this right must allow for a reasonable wring of the static water level at permittee's well due to any other ground water allopment in the area. The well shall be equipped with a 2-inch opening for the dependent to water. If well is flowing, a valve must be installed and attained to prevent waste. The State retains the right to regulate the use of the first permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.  The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.  This permit is issued under the provisions of NRS 534.120(2) as a preferred use.
